## THE HARQUA HALL MINES.

Bonanza Ores.

David Wright returned yesterday from the Harqua Hall district, where he has been sojourning for some time past. He informed the reporter that the Harqua Hall mill, with five stamps, had just completed an eight day run on ore from the Bonanza mine of Stein, Sullivan and Watson. The result of the clean-up was not known, although it was the talk of the camp that over \$100 in free gold to the ton had been realized, beside a ton of concentrates which will be shipped to Colorado for treatment. At all events, the owners of the mines seemed satisfied, and on Friday last Harry Watson left for San Francisco, in company with Mr. W. H. T. Watson, with two thousand dollars in bullion.

Work on the bonanza properties has been discontinued. The shaft on the Gold Hill is down eighty feet, and the ore is as rich as ever. Mr. Wright says that Bob Stein took him all over the properties, and they are the richest he has ever seen. Pieces of rock were picked up indiscriminately from all portions of the hill, and when horned showed a color of gold for the entire length of the spoon. He says it is a veritable hill of gold. It is thought that Watson may make a sale of the properties while in San Francisco, in which event Mr. Wright predicts a boom for the Harqua Hall country such as has never before been witnessed in Arizona. For some reason, the present owners do not seem inclined to operate the mines, and at the same time are not particularly anxious to sell.

There are some other promising properties in the district. Two parties of mining men have recently visited and examined the Desert mine of Bill Bear, twelve miles from the Ehrenburg road, and it is rumored that a sale of this property will shortly be consummated. P. C. Bicknell and John Agard brought to Harrisburg last week some fine looking ore from a claim which they have located some twenty-five miles distant from the bonanzas. There is no truth in the report that Bicknell lately made a sale of a mine. Captain McChesney is in Harrisburg, running an assay office.

A. H. Peoples has constructed a large dug out seven feet deep, and with a cement roof, in which he dispenses "wet groceries." It is the coolest place in the camp. The road to the bonanzas from the mill is six miles in length. It is very crooked, and not suitable for large teams. Harrisburg has a plentiful supply of water, and more wood than any other camp in Arizona, so it may be seen that the natural advantages of the working of ores are great.—Arizona.

### Sonoyta.

There is a great deal of activity and bustle around the town of Sonoyta situated about four miles north of Yuma. Mr. P. T. Dowling is building a mill to work silver ore from his Rosario mines four miles distant from the town. The mill will be first-class in every respect no expense being spared in its construction. Mr. Dowling expects to be able to work ore from other mines, and arrangements have been made to crush rich rock from the "La Gracia de Dios" mine owned by Charles B. Serventi. The country around Sonoyta is full of mineral and almost daily new discoveries are being made. A large number of bricks have been burned, and adobe made as rapidly as possible to meet the demand for new houses; in fact Rosario give promise of being a booming town. There is an abundant supply of good and wholesome water; fuel is also plentiful. The mines operated by Mr. Dowling are worked in a careful and systematic way. There are three tunnels being run which now measure about two hundred feet each, opening up a large body of fine milling ore which averages thirty-five dollars to the ton. Mr. Serventi's ore runs much higher, and gives promise of being a very valuable piece of property.

### Epoch.

The transition from long, lingering and painful sickness to robust health marks an epoch in the life of the individual. Such a remarkable event is treasured in the memory and the agency whereby the good health has been attained is gratefully blessed. Hence it is that so much is heard in praise of Electric Bitters. So many feel they owe their restoration to health, to the use of the great Alternative and Tonic. If you are troubled with any disease of the Kidneys, Liver or Stomach, of long or short standing, you will surely find relief by use of Electric Bitters. Sold for 50c, and \$1 per bottle at A. Frank's store.

Sheriff F. M. Shaw, W. H. Moore and W. W. Walker returned yesterday from the Gila Valley, where they went to attend the wedding of R. H. Marable and Nellie Bateman. The wedding occurred at the residence of Mrs. Fotbush, six miles from Aztec. Sheriff Shaw and Miss Lena Best acted as groomsmen and bridesmaid. They report a most enjoyable time and hospitable treatment from the people there.—Tucson Citizen.
